The FIRST Roadblock: The “Fear of Selling”

The truth is, you don't have to be a great salesperson.

Ninety-eight percent of the people who join a network marketing business are not salespeople.

Succeeding in network marketing has very little to do with selling.

Personal consumption, automation and duplication of your efforts are the keys to your success.

The REASON network marketing WORKS is BECAUSE you don't have to be a great salesperson.

You don't have to personally sell a lot of product each month to make a LOT of MONEY.

Success in network marketing is the result of people joining your network and using and/or selling whatever amount of product they are comfortable with each month.

The power of network marketing is in the power of automation and distributor duplication.

Nine out of ten people are seeking an opportunity to earn more money and live a better lifestyle.

The networker's job is to simply PROVIDE INFORMATION to people that are SEEKING an opportunity to create more income and a better lifestyle.

Some will see it. Some won't.

That is not for you to worry about.

You are the messenger... Not the message.

For those people that SEE IT, you simply show them the way to ENTER THE SYSTEM.

These new networkers are all independent business owners within YOUR network.

They will now DUPLICATE the process of

- using some products
- selling some products
- and SHARING the INFORMATION

with people that are seeking a similar opportunity.

That's ALL there is to it.

This is not a selling system.

It is a SHARING system.

The more people you "tell", the more people you can "sell" on the concept of network marketing.

Many people think they aren't cut out for selling.

If you like a product, just start "telling" and in the process you'll be "selling".

If you have a product that people WANT, they'll TRY it.

If people like what they TRY, they'll BUY.

We teach people a simple SYSTEM that is centered around offering INFORMATION, not selling.

The people will come to YOU to BUY.

We have a step-by-step AUTOMATED SYSTEM that YOU can learn.

NO pressure, NO hype, NO promises of results...

We let the SYSTEM and the PRODUCTS do the work.

People are pleased, they buy the products for themselves, and REFER others that need and WANT the products also.

It doesn't get any easier than this.

We teach people how to:

Advertise
Post flyers
Use the Internet
Get Referrals
And lots of other ways to find people
that WANT what you have.

Using our SYSTEM, you'll always have
plenty of interested people.

AUTOMATION is the KEY to success for virtually
anyone, and it has made a very simple system
of sharing even easier.

We'll explain how, thru the second roadblock.

The SECOND Roadblock: "The Fear of Not Knowing How to Build the Business"

With AUTOMATION, you can sell products and recruit other
networkers with or without talking to people you know.

And, you can literally do everything without leaving your home.

Here's how it works:

Step One: Make a list of people you know, run a small
classified ad, and/or purchase a list of people that are
interested in your product or opportunity.

Step Two: In your letter, email or ad you tell your
prospect to "Respond for FREE Information".

Step Three: Your prospect then calls or emails YOU.

Step Four: You then send the FREE information.

Step Five: The prospect reviews the information and/or
samples the product. If the prospect decides to try the

product or join your opportunity, he or she will place an order either with you or your AUTOMATED SYSTEM.

It really is just this simple.

Everything you need, the ads, the letters, the emails, you name it, is ready and available for you.

Hopefully, you're beginning to realize that this is SIMPLE and you REALLY CAN make some money.

The THIRD Roadblock: "Not Having Time"

The most time-consuming task in network marketing is training and supporting new members.

The ADVANTAGE you have in owning your own network marketing business is that you and your members get TWO LEVELS of training and support...

Both AUTOMATED and LIVE.

Your FIRST level of support is COMPANY support.

The company provides a state of the art web site and e-commerce system, and stays in the forefront of technological advances

The company also provides trained customer service representatives to take your customers' orders and handle any questions you or your customers may have.

The company should also provide brochures and sales aids at a low cost and low or no shipping cost.

Your SECOND level of support is PERSONAL support.

This is where your PERSONAL COACH, and experienced distributor, will help you in getting started, answer questions, and whatever it takes to get you into PROFIT fast.

As you can see, network marketing provides, at

NO COST TO YOU, a training and support system.

If you want a business of your own, but have very little time, or an unusual work schedule, network marketing and AUTOMATION is, honestly, your only SOLUTION.

The FOURTH Roadblock: “The Belief You Don’t Have Enough Money to Do This Business”

The biggest advantage of network marketing is that you don’t need very much money to get started.

For between \$100 and \$400 you can start your own network marketing business.

It’s affordable, it’s simple and it’s fun.

For as little as \$100 you can start the AUTOMATIC process of making money.

Even if you’re broke, up to your eyeballs in debt, and have your credit cards maxed out, you can get into this business and start making extra money.

Heck, you can raise enough money to go into business with a Saturday yard sale!

If you don’t have the time or money to start a traditional business or buy a franchise, then network marketing is your SOLUTION.

Because there is no need for a big financial investment, you have virtually NO RISK...

You have nothing to lose!

The only thing that can happen is that you’re going to have a better lifestyle.

You can work at home, WHEN and HOW you want to.

There are also many tax advantages to starting a

home-based business.

You can enjoy the same types of deductions as the large corporations like Microsoft and General Motors.

There is no business that you could buy or start that could ever generate the income or the lifestyle that network marketing offers.

If you really think about it, how could someone not be successful?

There's only one way not to succeed, and that brings us to the final roadblock.

The FINAL Roadblock: "Not Understanding How to Get Started"

The best way to get started is to become a distributor.

It's tax-deductible, and now you can purchase products at preferred and wholesale prices.

You have to believe in your products or you will never be able to build your business.

If, a couple of weeks later, you decide that being a distributor is not for you, you have nothing to worry about...

You are under NO obligation to do ANYTHING until YOU decide to build the business.

If you do decide to build your business, your only obligation will be to do the business ethically and within company policy.

There are no surprises in network marketing.

Just like franchising, network marketing is very regulated.

You will never be under any obligation to buy products, to have inventory, or do anything that you don't want to do.

Getting started in network marketing is, by far,

the easiest type of business to start.

It's really just a step-by-step process that anyone can duplicate.

I know it's hard to believe, and sounds too good to be true.

But just look around you...

Times are changing.

Automated network marketing businesses are the future.

Become a wholesale buying member and join the THOUSANDS of other people who are creating amazing INCOMES and LIFESTYLES for themselves and their families.

Let's Take a Look at What You've Learned So Far:

1. You've learned that sales skills are not necessary. However, you must be willing to TELL other people about your products and/or opportunity.
2. AUTOMATION eliminates the problem of not having enough time.
3. It only costs between \$100 and \$400 to start your own network marketing business, and there is no risk.
4. You'll be shown a PROVEN step-by-step SYSTEM on how to build your business. And, how to do so without the need for lots of time or selling skills.
5. You can get all the prospects you will ever need from word-of-mouth, flyers, classified ads, and mailing list companies, just to name a few resources.
6. EVERYTHING else you may need to get your business off the ground and into PROFIT can be obtained from your sponsor – your own Personal Success Coach.
7. You'll receive, and be able to provide to YOUR new members, two levels of training and support.

8. It's EASY to get started.

9. If you REALLY want to make money with an AUTOMATED SYSTEM, there's no reason not to do network marketing.

(The following is a SUPPLEMENT to your "Removing the Five Roadblocks" Report.)

Life-Changing Products That Everyone Wants to Buy

Automatically Get Monthly Repeat Business

Having consumable life-changing products means monthly re-orders!

People everywhere want to live longer, feel better, look better and have more energy.

Point Number 1: The Industry

You want to position yourself in FRONT of a LARGE and GROWING industry.

Home-based Businesses
Network Marketing
and
Diet and Nutrition

Point Number 2: Emotional Products

Your products should be emotional.

When people benefit from your product, they become emotionally tied to the product.

Diet and Nutrition products are the most emotionally-bonding products to market, because people can FEEL a difference.

Point Number 3: Consumable

Having a CONSUMABLE product is very important.

You want a product that people consume, and AUTOMATICALLY come back next month to buy again.

This is called “REPEAT BUSINESS”.

Diet and Nutrition products are products that people want and need to take DAILY.

The fact that Diet and Nutrition products are so emotional SECURES your monthly REPEAT BUSINESS.

And, because the benefits that your products provide are so diverse and amazing, your secure repeat-customer base brings you NEW CUSTOMERS.

The REFERRALS you get in this business are amazing.

A great consumable product is the SECRET for LONG-TERM SUCCESS in network marketing.

Imagine, if nothing else, that your growing base of wholesale buying members and their families are buying your products every month.

All of this, just from your growing network of members SHARING unique products that really work!

If you hate to sell, but like to make money, this business is FOR YOU.

Point Number 4: You Need Unique Products

Network marketing companies, as you are about to learn, are very unique.

Because the products go DIRECTLY from the company to the customer, network marketing companies can invest the millions of dollars that would have gone into marketing and advertising into designing and producing HIGHER QUALITY products.

There is literally NO COMPARISON between what you can buy at the store and what network marketing companies offer.

When you have great products, the positive impact people receive and their testimonials will fuel your sales.

RESIDUAL (or ROYALTY) INCOME

Residual, or royalty, income is income you KEEP ON GETTING long AFTER you do the work.

Like when a singer records a song today, and keeps on getting paid every time a CD or iTunes is sold, FOREVER.

Like Elvis Presley, he made like \$40 MILLION BUCKS last year, and he's BEEN DEAD for over 30 YEARS!

Or Jerry Seinfeld... Jerry hasn't taped a Seinfeld episode in years...

Yet he keeps on getting paid every time there's a re-run, like every night!

Network marketing is the ONLY business vehicle that offers YOU Residual (Royalty) Income in the form of a very lucrative compensation package.

Imagine the FREEDOM to DESIGN your own life...

... to live in your dream home,

... to drive your dream car,

... to take fabulous vacations,

... to be out of debt,

... to build a better LIFESTYLE for you and your family.

Heck, to be able to buy a new refrigerator if yours dies on you!

The income from your own network marketing business can make it all possible.

Network marketing offers you MULTIPLE STREAMS of INCOME.

First, you can earn great profits from your customer network.

Second, you can earn generous wholesale commissions FOR THE REST OF YOUR LIFE on the purchases of your

growing organization.

Third, you can earn residual, or royalty, income FOR THE REST OF YOUR LIFE on your organization of business builders in your network.

And this RESIDUAL/ROYALTY income is willable...

You can pass it on to your children and grandchildren.

Another great thing about network marketing is that you can start making money RIGHT NOW.

You can earn IMMEDIATE INCOME TODAY...

EXECUTIVE INCOME in months...

WEALTH in a few years...

And, PERPETUAL RESIDUAL/ROYALTY INCOME that can grow exponentially for the rest of your life.

Regardless of who you are...

Whatever your background may be...

Network marketing offers you a WORKABLE SYSTEM for success.

Men and women from all walks of life are creating FINANCIAL SECURITY by starting part-time network marketing businesses from their homes.
